Spain Will Ask For Peace Within a Very Few Days

SO ASSERTS A NAVAL ATTACHE AT LONDON TODAY

Washington, July 7—Special—Lieut. Colwel, naval attache at London, notified the navy department today that Spain would probably sue for peace this week. This statement agrees with the reports received through the press agencies, all of which agree that the clamor for peace is becoming so general as to be well nigh irresistible.

On the Verge of Revolution.

London, July 7—Special—The Spanish monarchy is facing a grave crisis. Events of recent occurrence have enraged the people, who are now openly denouncing it as incompetent and cowardly. The latter charge cannot fairly lie at its door, for it has had courage, to essay the impossible. It has lacked discretion, however, and the disasters that have befallen it are largely due to this fact. The people are now turning towards Don Carlos as their only hope. In Madrid, where Carlists have heretofore been few, there are some who openly advocate the cause of the pretender, and his adherents are increasing daily. The fall of Santiago is expected to precipitate a crisis. The queen regent is ready for flight at a moment's warning. Sagasta, with his accustomed celerity, will doubtless be found upon the side of the strongest party, whatever that may be. It is the general opinion that the reigning monarchy is doomed. A republic is impossible, and hence the only resort is with Don Carlos, whose star is once more in the ascendant.

How Peace Will Come

Washington, July 7—Special—As diplomatic relations no longer exist between Spain and the United States inquiries are frequent as to the procedure in case Spain should desire to ask a cessation of hostilities. It is the custom for the representative of some power at peace with both combatants to act as the go-between. In this instance the British ambassador at Madrid would probably be requested to convey to the nearest American diplomat of high rank—probably Mr. Hay at London—the wishes of the Spanish government. Mr. Hay would communicate with Washington and some one would be delegated to represent the United States in the negotiations. Pending this conference an armistice would probably be declared. This is not essential, however, though customary. During the negotiations no overt acts will be permitted on either side. Representatives of their powers will probably be at the conference to see that nothing is done that shall infringe upon their rights. These would have no voice in the settlement except so far as their protests might be of avail with the nations directly in interest. Hostilities would cease as soon as the terms of peace were agreed upon, and peace would be officially declared when the respective governments had accepted the terms in official form.

Pressure on Linares.

Washington, July 7—Special—A dispatch has been received from Shafter saying the strongest pressure is being brought to bear on Linares to surrender Santiago.

A Captured Schooner.

Key West, July 7—Special—The Spanish schooner Galite was captured by the Eagle off the Isle of Pines, and was towed in this morning.

A Ministerial Crisis.

Madrid, July 7—Special—Rumors of a ministerial crisis are afloat. A ministry under Campos may be formed within a week.

Artillery For Shafter.

Washington, July 7—Special—Four batteries of heavy artillery have been ordered to move to Santiago without delay.

Hobson Has Been Exchanged.

Washington, July 7—Special—A telegram to the war department from Shafter says Hobson has been exchanged.

New York, July 7—[Special]—According to the latest figures the number of persons lost on the Bourgogne is 560.

People are dazed by the appalling scope of this tragedy. That a demonstration was not made against the surviving sailors this morning is surprising, as everybody had expected it.

SUNDAY SCHOOL CLASSES

A Unique Social Function at First M. E. Church.

There was a large group of people gathered at the First M. E. church last evening, as a company of about forty came marching into the splendidly decorated place as the guests of their fellow Sunday school workers. To the uninitiated the strange device was interpreted, and found to mean "Union Banquet for the Boys' Class and Crawford's Class," and the company was to be entertained by two of the splendid classes of the wide-awake First church Sunday school. And right royally did they do their work. Under the guiding eye and deft hand of the committee on decorations, Miss Elsie Cummings and Edward Kay, the parlors of the church never looked more handsome and artistic. The national colors were draped from the center chandelier to the four corners of the room where they were caught with a beautiful bouquet, producing a fine effect.

A booth in one corner equipped with a large specimen of "Old Glory" was a delightful cozy corner where was dispensed cooling draughts of lemonade. The tables were gorgeously decorated with roses and other flowers, and beautifully spread with cake, fruit and ice cream presided over by "a lovely bevy of fair young ladies." The company ate the viands, whiffed the perfume of the flowers, and drank deeply of the spirit of fellowship that presided everywhere.

Then followed a short program of recitations, songs by the Y. M. C. A. quartette, solos and readings, all introduced by a splendidly written paper, by Mr. Edward Kay telling of the object and future scope of such functions, the program closing with the presentation of a beautiful Epworth League pin to Mr. W. J. Knight the gift of his class.

It was nearly 11 o'clock when the party broke up and all voted the occasion to be a decided success. The idea is wholly new in the city and will be repeated by the young people of the First church semi-occasionally for the purpose of increasing and extending the interest and work of the Sunday School.

MURDERED HIS WIFE

Fred Rodman, of Westfield, Deliberately Shoots and Kills His Wife.

Westfield, Wis., July 7—[Special]—The most dastardly crime ever committed in this community occurred this morning. Fred Rodman shot his wife through the heart. She was a former wife of the late Assemblyman J. W. Perkins, an estimable woman, and recently an assistant in the post-office. Rodman also attempted to shoot his brother, who was present. He was arrested and locked up in the Monticello jail, twelve miles away. The affair has created such excitement that it became necessary for the authorities to telegraph for sheriffs from the surrounding country, to provide against lynching.

HOBSON IS A FREE MAN

Merrimac Hero and Companions Exchanged Today

SPANISH SHIP OF WAR SUNK NEAR HAVANA HARBOR

Kingston, July 7—Special—Hobson and comrades arrived at Siboney yesterday.

The exchange was conducted for the Americans by John Jacob Astor. It was witnessed by the Spanish and American armies. Hobson and his men were enthusiastically received by the American army as they passed through en route to Shafter's headquarters.

Prepare For Bombardment.

Siboney, July 7—Special—It is estimated that fully twenty-five thousand non-combatants and foreign residents are leaving Santiago in anticipation of the bombardment. They are making their way to places of safety through the American lines. Gen. Shafter has given up all hope that the city will surrender without assault. He has ordered a battery of thirty-two inch mortars to make a forced march to the front.

Blanco Issues a Manifesto.

Havana, July 7—Special—Blanco has issued another bombastic manifesto. He admits the annihilation of Cervera's fleet, but claims that the Spanish admiral's action was a glorious feat, and one that should spur every Spaniard on to renewed effort. Blanco informs the archbishop, in reply to an appeal to surrender, that such a move is impossible.

Pained at the Disaster.

London, July 7—Special—A dispatch from Havana says Cervera has notified Blanco that Admiral Villamil and Capt. Logaza were killed during the engagement with the American warships. The dispatch adds that the disaster has caused a painful impression in Havana, but the war feeling is not diminished.

The Alphonso a Wreck.

Havana, July 7—Special—The Spanish cruiser Alphonso XII, which was run down by the American squadron as it was leaving the harbor yesterday, is a total loss. Five hundred shots were fired at her, and she was set on fire. Her crew and part of her cargo was saved.

Admit All in Madrid.

Madrid, July 7—Special—The government this morning permitted the publication of an official dispatch announcing the annihilation of Cervera's fleet, the death of six hundred men, including Admiral Villamil and Lozano, and the capture of a thousand men, Cervera among them.

Gen. Wheeler Reported Dead.

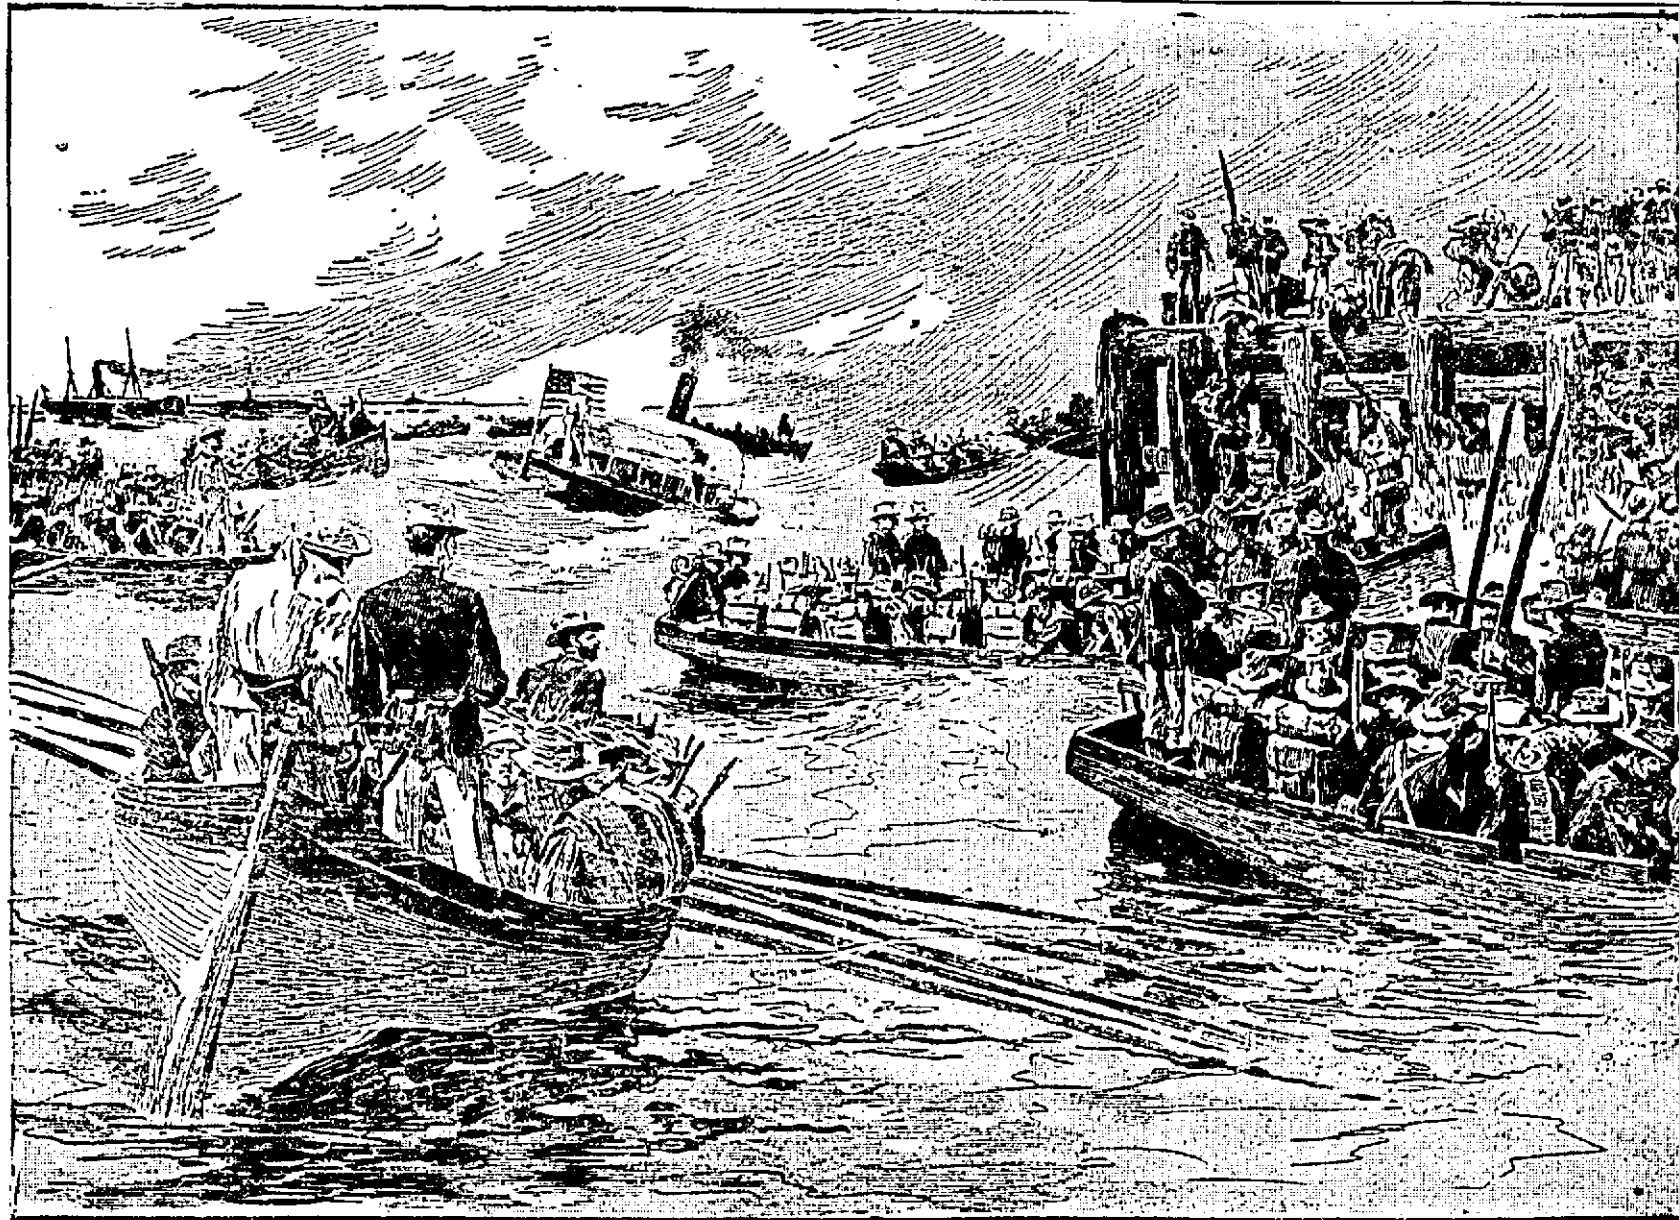

Tampa, July 7—Special—An unconfirmed rumor is current here that Gen. Wheeler is dead. Washington, July 7—Special—The report that Gen. Wheeler is dead is not believed here.

Killed No Prisoners.

Washington, July 7—Special—Gen. Shafter officially denies that the Cubans have killed Spanish prisoners.

THE INVASION OF CUBA—GENERAL SHAFTER'S TROOPS LANDING AT BAIQUIRI. FROM HARPER'S WEEKLY.
After a Drawing by T. de Thulstrup. Reproduced from Harper's Weekly. By Permission. Copyright, 1898, by Harper & Brothers.

We reproduce today a picture by Thulstrup from the pages of Harper's Weekly, which represents the debarkation of General Shafter's troops at Baiquiri. The men were put ashore at an old wooden dock which runs up out of the shoal water to a short stretch of sandy beach. They fell at once into marching formation and disappeared immediately in the tropical underbrush, so that not more than three or four hundred were in sight at a time. There was, therefore, no dis-

play on the water front, and the movements on the shore presented no indication that thousands of soldiers with their equipments were beginning the invasion of Cuba.

On the water, however, it was quite a different affair. The spectacle recalled the pictures of old marine operations when armed crews in small boats and boarding parties, bristling with muskets and cutlasses, were familiar features of naval warfare. In the offing, steaming slowly to over-

come the current, lay in huge transports, their decks crowded with men eager to exchange the irksome confinement of the troop-ship for the freedom of the camp. Farther out to sea were the convoys, stripped for action and ready to repel any interference with the landing, with keen-eyed lookouts in every fighting top to watch the shore as well as the sea. Between the beach and the transports water seemed covered with row-boats and a few steam and electric launches

darting here and there, filled with officers and shouting orderlies. In the apparent confusion the most perfect order prevailed. The soldiers were packed in the boats like the proverbial sardines; each man carried his gun and all his accoutrements, and had his blankets slung over his shoulder.

The intricate and critical disembarkation was completed without an accident or mistake, and in the evening the flagship signalled to the headquarters transport, "Admiral Sampson congratulates Shafter."

CLASSES MEET FOR PLEASURE

Pleasant Joint Social of Two Methodist Church Classes.

Two of the classes in the First M. E. Sunday school, that of W. J. Knight, consisting of young men, and that of Archie Crawford, composed wholly of young ladies, had a joint social at the parlors of the church last evening. The rooms were tastefully decorated with seasonable flowers, and the perfume of roses and sweet peas blended in grateful fragrance. A fine collation was served, after which toasts and speeches were the order. Music was furnished by the Y. M. C. A. male quartette, while Mrs. J. B. Smith sang a few delightful selections, and recitations were given by Miss M. Alice Clithero and Miss Alice Crawford. Edward Key read a history of Mr. Knight's class, and remarks were made by others of those present. The affair was the first of a series of receptions by the classes, and if those to follow are half as agreeable these occasions will be looked forward to with the keenest anticipations of delight.

Conservatives and Republicans Say Conditions Are Ripe for an End of the Conflict—Campos May Be Elevated to Power.

End of Debate Reached Sooner Than Was Expected—Six Democrats Voted to Take in the New Territory—Resolutions with the President.

Washington, July 7.—By comparison with what has gone before, Wednesday was very quiet at the war and navy departments. There were bulletins posted in the former department, but so far from indicating an impending battle, the general tendency of these bulletins was to show that no forward move is in immediate contemplation. There is everywhere a disposition to insist that hereafter haste shall be made slowly, and that the equipment of our soldiers, the commissary and quartermaster's supplies, their ammunition and their hospital stores, shall be complete in every respect before they advance farther.

Confidence is felt that there will be no friction between the army and navy commanders, and the conference between them will result in an agreement upon a joint plan for the prosecution of the campaign. In the event that this belief should be not well founded the president is prepared to act himself by orders from first hand. There is much of force in the naval argument that if Sampson is obliged to enter Santiago harbor before the forts are captured he will jeopard the safety of the whole of the ironclad fleet under his command, since by the sinking of one of these ships in the narrow channel through a Spanish mine or shell the fleet would be left helpless and exposed to destruction under the guns of the forts, to which they could make no reply, owing to the elevation of the latter.

On the other hand, the army officers seem to be justified in avoiding the tremendous sacrifice of life that would be involved in again throwing our soldiers upon the Spanish defenses until they have been materially re-enforced in numbers and strengthened by artillery.

Sampson did not report to the navy department, but the war department sent over a very agreeable message from Shafter announcing the readiness of the Spaniards to exchange Hobson and his men. It is believed that this was accomplished some time during the day, though notice of it has not been received.

The fact that several of the vessels selected for Watson's fleet were in the thick of the engagement of July 3 promises to delay somewhat the departure of the eastern squadron for the shores of Spain. The vessels have consumed a good deal of coal, and without doubt have expended a large quantity of their highest grade of ammunition in the furious attack on the steel warships of the Spaniards. It will be necessary to replenish these stores before the long European voyage is begun. However, Secretary Long has given orders for the preparation of this squadron, and it certainly will be off in the course of a few days.

WILL DIE FIGHTING.
General Linares Declares He Will Never Surrender.

Before Santiago de Cuba, Monday, July 4, per the Associated Press dispatch boat Dauntless, via Port Antonio, Jamaica, Tuesday, July 5, via Kingston, Jamaica, July 7.—Not a shot has been exchanged between the two opposing armies since yesterday noon. At the request of the foreign consuls in Santiago de Cuba Gen. Shafter extended until tomorrow the period in which Gen. Linares may agree to surrender his forces, under the threat that the town will be bombarded. The Spanish general's decision is doubtful. It is unquestionably true that the annihilation of Admiral Cervera's fleet was a staggering blow to him, but Mr. Ramsden, the British consul, says Gen. Pando has re-enforced Gen. Linares with 5,000 troops, and that the Spaniards are utterly determined to fight it out. He said that so intense was the feeling among the Spanish subaltern officers that Gen. Linares would probably be shot if he surrendered.

Their attitude was expressed in Gen. Linares' reply to Gen. Shafter yesterday: "The garrison dies, but never surrenders."

PROCLAMATION ISSUED.

Thanks to the Almighty.

Washington, July 7.—President McKinley Wednesday night issued a proclamation to the American people calling on them upon next assembling for divine worship in their respective places of meeting "to offer thanksgiving to Almighty God, who, in His inscrutable ways, now leading our hosts upon the waters to unscathed triumph, now guiding them in a strange land through the dread shadows of death to success, ever though at a fearful cost; now bearing them without accident or loss to far-distant climes, has watched over our cause and brought nearer the success of the right and the attainment of just and honorable peace. And, above all, to pray with earnest fervor, that He, the dispenser of all good, may speedily remove from us the untold afflictions of war."

London, July 7.—The Madrid correspondent of the Daily Telegraph sent a dispatch to his paper today saying: "I am informed that peace will be demanded today."

Madrid, July 7.—Senator Silva, the conservative leader, declares the present situation is no more favorable to peace than to war. But, he adds, the government alone can judge of what ought to be done in the present circumstances, and he will support the government in any determination it may reach.

The republicans say the country is unable to withstand such misfortunes, and that the time has come for a general settlement. The military party favors a continuance of the war. Military men say they think Spain could never have expected naval victory, and that so long as she does not meet with disaster ashore she ought not to sue for peace. The Carlists are anxious for the war to continue.

The government views are believed to differ. Senator Sagasta, the premier, says he is waiting details of recent events from official Spanish sources, adding that he will see the effect which the loss of the Spanish squadron has upon Spain before deciding upon his course.

The Spanish government's decision to continue the war was published yesterday, and it was decided that the Americans needed 200,000 men to continue the operations in Cuba, it having been alleged here that the co-operation of the insurgents was practically nothing.

Campos May Propose Peace.

Madrid, July 7.—A government crisis is imminent, and it is regarded as probable that Senator Silva or Marshal Campos will succeed Senator Sagasta as premier and propose peace in order to prevent the Americans from attacking seaboard cities of the peninsula and ruining Spain. The palace is strongly guarded and the queen regent, who is described as being inconsolable, is receiving sympathy of the sensible portion of the population. There is no disguising the fact that grave forebodings are heard as to the future of Spain.

Ask the Pope to Seek Peace.

London, July 7.—A special dispatch from Rome says the pope is profoundly dejected at the fresh disaster to Spain. The dispatch adds that several cardinals strongly urge the pope to make another attempt to arrange peace between Spain and the United States, but the pontiff declares the failure of his first intervention was so complete that he cannot reinitiate the movement.

Admiral Camara Called Back.

Gibraltar, July 7.—According to dispatches received here from Madrid, the Spanish government has ordered Admiral Camara to return to Spain.

CHRISTIAN ENDEAVORERS.

International Convention of the Society Assembles in Nashville.

Nashville, Tenn., July 7.—The seventeenth international Christian Endeavor convention opened here at 7:30 o'clock Wednesday evening with ten simultaneous meetings in ten of the city churches. The programs of all of these meetings were the same.

The Illinois delegation has had three parties so far, and others are arriving on every train from the North. The Indiana delegation came in Wednesday. T. C. Heath, of Indianapolis, has charge of the entire delegation. The Iowa delegation arrived in the morning. C. W. Sweet, of Des Moines, and C. R. Shatto, of Danville, have charge of the delegation. Michigan sent a very large delegation.

Go to Re-enforce Shafter.

Camp Thomas, Chickamauga Park, Ga., July 7.—Gen. Wilson and three regiments of infantry have left Camp Thomas to re-enforce Gen. Shafter at Santiago, and three more are sleeping on their arms awaiting the order which will send them to join the old commander of the first division. The three that have left are the Second and Third Wisconsin and the Sixteenth Pennsylvania, and those waiting are the Third Illinois, Fourth Ohio and Fourth Pennsylvania. All recruits are to be left behind, and they will be attached to a division of which Col. Culver of the Fifth Illinois will be the commander.

Watson Will Chase Camara.

Washington, July 7.—Within a week, it is declared, Commodore Watson's eastern squadron, consisting of the flagship Newark, a protected cruiser, the battle-ships Iowa and Oregon, the auxiliary cruisers Yankee, Dixie and Yosemite, the colliers Abenanda, Scindia and Alexander, and perhaps the supply ship Delmonico, will sail from Santiago to seek and capture or destroy the Spanish fleet under Admiral Camara.

Fish caught black bass

Washington, July 7.—The annexation of Hawaii is now accomplished, so far as the legislative branch of the government is concerned.

Quite unexpectedly the resolutions providing for the annexation of the islands were brought to a vote in the senate late Wednesday afternoon, and they were passed by the decisive vote of 42 to 21.

Early in the session of the senate conferences of the leaders on both sides of the chamber were held and a tacit agreement was reached that a vote should be taken today or Friday.

Neither Mr. White nor Mr. Pettigrew spoke at great length Wednesday. Mr. Allen eliminated a part of the matter he had prepared, and at 4:15 he completed his speech.

It was evident instantly that a vote was at hand. The word was passed quietly through the corridors and committee rooms, and in a few minutes every senator at the capitol was in his seat.

The test vote came on an amendment offered by Mr. White of California. It was offered with no expectation that it would be adopted, but merely to place the ideas and opinions of the opponents of annexation on record.

It was rejected by a vote of 40 to 20, indicating that the annexationists were strongly in the majority.

Amendment after amendment was then offered, but the advocates of the resolutions stood solidly together, gaining rather than losing strength on the successive votes.

Finally, at 5:30 p. m., the resolutions themselves, in precisely the form in which they were received from the house of representatives, were reported to the senate, and the roll call began. Intense interest was manifested by every spectator. Not a sound was to be heard in the chamber except the call of the clerk and the responses of the senators.

When the vice president announced the vote by which the resolutions were passed a tremendous wave of applause swept through the galleries, which the vice president made no effort to check.

The vote for annexation stood:

Yeas—Allison, Baker, Burrows, Cannon, Carter, Clarke, Culom, Davis, Deboe, Elkins, Fairbanks, Foraker, Frye, Gallinger, Gorman, Hale, Hanna, Hansbrough, Hawley, Hoar, Kyle, Lodge, McBride, McLaurin, Money, Nelson, Penrose, Perkins, Pettus, Platt (Conn.), Pritchard, Proctor, Sewell, Shoup, Sullivan, Teller, Warren, Wellington, Wetmore, Wilson, Wolcott—42.

Nays—Allen, Bacon, Bate, Berry, Caffery, Chilton, Clay, Daniel, Faulkner, Jones (Nev.), Lindsay, McEnery, Mahony, Mitchell, Morrill, Pascoe, Pettigrew, Roach, Turley, Turpie, White—21.

Mr. Morrill (Vt.) was the only republican who voted against the resolutions, although Mr. Thurston (Neb.) and Mr. Spooner (Wis.) were paired against them. Six democrats—Gorman (Md.), McLaurin (S. C.), Money (Miss.), Morgan (Ala.), Pettus (Ala.), and Sullivan (Miss.)—voted in favor of annexation.

The resolutions as passed provide that Chinese immigration to the islands shall cease, and that no Chinese shall be permitted to enter the United States from the annexed territory. Hawaiian treaties are replaced by the treaties that the United States has with foreign governments; but the existing customs laws are to be observed until such time as congress decrees changes. The public debt of the islands is assumed by the United States, but not to exceed \$1,000,000.

REPUBLICAN STATE CONVENTION.

Headquarters Republican State Central Committee, Milwaukee, June 15.
To the Republican Electors of Wisconsin:
By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 12 o'clock noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention.

In accordance with resolution recommended by the state convention and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit shall be the assembly district, and in such counties delegates shall be elected by assembly district conventions.

Under the present basis of representation the several assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election.

Special attention is hereby called to the fact that all delegates to elect delegates to the state convention must be called on a notice of not less than four weeks; all town or ward caucuses as primaries to state convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central committee acts as the committee on Credentials, it is requested that credentials of delegates elected, duly certified to by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and notice address.

KIRWIN D. COLE, Chairman.
JOHN M. EVERT, Secretary.

Rock county will be entitled to 23 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

Each assembly district will be entitled to one delegate for every 250 votes cast for the republican candidate for President in 1896, and an additional delegate for a majority fraction of the several assembly districts will be entitled to representation in the convention as follows:

- Green, twelve.
Kenosha, twelve.

Dated July 5, 1898.

W. W. CHADWICK,
Chairman First Congressional District Republican Convention.

A FRIEND OF LABOR

The Ma lock's Eagle says: "Chat Gov. Scofield is and always has been a friend of labor, those who have long known him at Marinette and Oconto do not need to be told; but among those who know no better, the misrepresentations of Assemblyman Hall and the others who train with the La Follette contingent may be believed. They cannot, however, explain away the position Gov. Scofield took on the exemption of the earnings of laboring men from garnishment or attachment. As is well known, the law has provided for a 60 day exemption. A bill passed the legislature cutting this to 40 days and was promptly vetoed by the governor. This is a substantial way of expressing a feeling for laboring people which admits of no honest criticism."

According to the North American Review the climate of Madrid has been lately described by its inhabitants as "three months of winter and three months of hell."

eliminating the reference to the winter.

The fact that a reporter for The Milwaukee Sentinel was with Inventor Raddatz when the submarine boat was tested under Lake Michigan at Milwaukee, would seem to indicate that all the nifty newspaper men are not in Cuba.

Admiral Cervera is a brave man. "I would rather," he said, "lose my ships at sea like a sailor, than in a harbor. There was nothing else for me to do." The Spanish Commander and his men faced death without a flinch.

All the foreign warships are said to have left Manila, and Dewey is in complete control. Camara's stay at the Philippines, it is thought, will also be short.

"Above water."

As a rule, the people do not think the free speech clause was incorporated in the constitution for the benefit of any one man. There is generally an exception to all rules, however.

The man who plans to bulldoze Alderman Carpenter will find it to his advantage to first take a course of training by fighting a barb wire fence a few hours each day.

Immediately upon receipt of the news that Commodore Watson would at once set sail for Spain, Admiral Camara, set sail through the Suez canal.

"Shall we fire?" anxiously enquired the gunner of Commodore Schley. "Yes," said the Commodore, "let her schleydel!" And then the fight began.

When Sampson and Shafter make a joint attack on Santiago, the people of that town will think that the end of the world is at hand.

It now develops that to Commodore Schley the credit should be given for the Santiago victory. But it is all the same—the navy did it.

The Second and Third Wisconsin regiments are on their way to Cuba, but the First is still in camp at Jacksonville.

Constant Reader—You are right. A quit claim deed to the town is not executed to the mayor on his election.

The Raddatz submarine boat was tested in the deep waters of Lake Michigan, and worked well.

Figuring it in the same proportion, Admiral Cervera's fleet must now look about like four cents.

The Maine was remembered, and the Spanish fleet dismembered.

Congress Ready to Adjourn.

Washington, July 7.—The action of the senate in passing the Hawaiian resolution clears the way for a speedy adjournment of congress for the session, and it is expected to occur on Friday. There is nothing of great importance pending between the two houses now save the provision for the appointment of a Central Pacific railroad debt commission, which was attached to the general deficiency appropriation bill by the senate. The house agreed to it with a slight amendment, and if the senate accepts the change that will finally dispose of the bill as far as congress is concerned.

Slavery on British Soil.

A form of slavery has received the official sanction of the British government. When last year the 200,000 inhabitants of South Africa known as the Bechuanas were disposed of 200,000 square miles of territory, the government did not know what to do with the natives. It was therefore decided to open a slave mart, and the Cape Times tells of the prices for which the blacks were sold. The natives were brought to Cape Town in batches of some 200 at a time and sold for periods of five years to those who wished cheap labor. Able-bodied men were sold for ten shillings a month, and youths and women for seven and six pence a month (\$2.50 per month for men and \$1.87 for the youths and women). This money is paid to the government. Although this form has existed but three months some cases of gross cruelty have been reported.—The New

WILBUR TO MANAGE THE EDGERTON NINE

LOCAL PLAYER SECURES GOOD POSITION

Edgerton Money Is Plentiful and Will Bur Was Selected From Among Many Men—The Team Will Be Supplied With New Material—Will Soon Play Here.

George W. Wilbur, of this city, has been selected to manage the Edgerton base ball team, and within the next few days he will assume control. The position is an important one, and is by far the best one yet secured by any of the local ball players who have hired out this season.

Edgerton business men have recently raised a goodly sum for the purpose of maintaining a first class base ball team, and their first move in this direction was the securing of the Janesville boy as manager.

A Good Selection

That the selection is a wise one is the opinion of many from here, for no local player on the diamond has ever made a better all around record than has George Wilbur. He has played in many league teams, and has always carried away his share of the honors. Found du Lac of late has made him flatteringly offers, but these he declined. His favorite position is in the field, and while manager of the Edgerton team it is this position he will hold. The present Edgerton team is to be remodeled, and but five of the present players are to be retained. The best material that money can procure will be substituted, and the best part of it is the Edgerton management now have the cash on hand to carry out all plans.

Will Soon Play Here.

A game will be played in this city before the end of many days. As the result of getting the new team in the field the Edgerton management were obliged to cancel the game here tomorrow, and in their place have been substituted the Brodhead team.

CAMP LIFE AT JACKSONVILLE

Dr. Whiting Attends a Hanging—Boys Suffer a Draining.

Jacksonville, Fla., July 6.—Several hundred Wisconsin men witnessed the hanging of Edward Hinson, a negro, in the Duval county jail, today. Hinson was charged with assaulting Ida Bailey, aged 14. He maintained his innocence to the last. Drs. McDill and Whiting were on the jury of doctors. Among other Wisconsin officers who witnessed the execution were Maj. Stearns, Lieut.-Col. Young, Capt. Lewis and Vowell. Lieut. Richmond and Tucker. The latter took six pictures of the execution.

When reveille was sounded this morning the Wisconsin boys were in a rather demoralized condition. The heavy rain drenched the men during the parade yesterday and soaked every stitch of the boys' clothing, and there were few who had dry clothes this morning. Some could not even get their shoes on. All drills were therefore suspended, and the whole morning was devoted to drying clothes and cleaning and oiling guns and other equipment.

DEFICIENCY BILL APPROVED.

Settlement with Central and Western Pacific Roads Decided On.

Washington, July 7.—The house Wednesday, after a debate of four hours, concurred in the senate amendment to the general deficiency bill, authorizing the secretary of the interior, the attorney-general and the secretary of the treasury to settle, with the approval of the president, the indebtedness of the Central and Western Pacific roads to the government. The amendment was concurred in by a vote of 96 to 86. An amendment was offered and adopted to the Pacific Railroad amendment providing that unless settlement was reached within one year the president should begin foreclosure proceedings to collect all money due the government.

A Juvenile Flatterer.
On the morning of my birthday (says the Duchess D'Abantes) I sent my son with his nurse to call on the Princess Pauline (Napoleon's sister.) He was a very fine boy, and a great favorite with the princess. "Why do you love me, Napoleon?" said she to him one day. "Because you are pretty," replied the child, throwing his little arms around her neck. This naive reply pleased the princess to the very heart; and, in truth, her beauty must have been of a captivating kind, to have made so strong an impression on the child.

CAMP LIFE AT JACKSONVILLE

Dr. Whiting Attends a Hanging—Boys Suffer a Draining.

Jacksonville, Fla., July 6.—Several hundred Wisconsin men witnessed the hanging of Edward Hinson, a negro, in the Duval county jail, today. Hinson was charged with assaulting Ida Bailey, aged 14. He maintained his innocence to the last. Drs. McDill and Whiting were on the jury of doctors. Among other Wisconsin officers who witnessed the execution were Maj. Stearns, Lieut.-Col. Young, Capt. Lewis and Vowell. Lieut. Richmond and Tucker. The latter took six pictures of the execution.

When reveille was sounded this morning the Wisconsin boys were in a rather demoralized condition. The heavy rain drenched the men during the parade yesterday and soaked every stitch of the boys' clothing, and there were few who had dry clothes this morning. Some could not even get their shoes on. All drills were therefore suspended, and the whole morning was devoted to drying clothes and cleaning and oiling guns and other equipment.

Col. Schadel has ordered all unserviceable guns or those out of repair to be turned in when an expert from Springfield will replace broken parts and condemn all weapons which are not fit to take to war.

The following are sick with malaria: Patrick Preston, Janesville; S. W. Scott, Racine; C. Tomkiewicz, Milwaukee; Private Carpenter and E. Falter, Whitewater.

DEFICIENCY BILL APPROVED.

Settlement with Central and Western Pacific Roads Decided On.

Washington, July 7.—The house Wednesday, after a debate of four hours, concurred in the senate amendment to the general deficiency bill, authorizing the secretary of the interior, the attorney-general and the secretary of the treasury to settle, with the approval of the president, the indebtedness of the Central and Western Pacific roads to the government. The amendment was concurred in by a vote of 96 to 86. An amendment was offered and adopted to the Pacific Railroad amendment providing that unless settlement was reached within one year the president should begin foreclosure proceedings to collect all money due the government.

Russia Is for Peace.

St. Petersburg, July 7.—The Russian newspapers counsel the United States and Spain to "cease this terrible war." They declare that diplomatic intervention has become necessary.

The Novosti says: "In view of her close relations with the United States Great Britain might, without departing from her neutrality, offer her mediation to President McKinley."

Alphonso XII Reported Captured. Key West, Fla., July 7.—It is reported that the Spanish warship Alfonso XII, attempted to run the blockade out of Havana and was captured by an American cruiser. Two more ships are expected from Santiago, with seriously wounded soldiers on board.

An Old Lady On a Wheel

Came into the store yesterday and went out into the Children's Department. Ever noticed her on the street? One of the best riders in town, and she DOESN'T wear Bloomers.

But as she passed out she stopped and fingered some SWEATERS in our Furnishing Goods Department and remarked that she "wished she could wear them." We have them as low as 50c. ASHLEY WOUNDED IN SANTIAGO BATTLE

LOCAL RELATIVES RECEIVE THE SAD NEWS

Janesville Boy Went to the Front With the Springfield Volunteers—Left the Bower City But a Year Ago—Extent of His Injuries Are Not Known.

Charles Ashley, a well known Janesville boy, the son of George Ashley, who resides at the corner of Armour and Eastern avenues, was wounded in the battle of Santiago. The extent of his injuries are at present not known, the official messages to the government merely giving his name among those wounded.

Few Particulars Received.

George Ashley, father of the injured boy, is foreman in the batting factory operated by Howe Bros. on North River street, and up till a late hour this afternoon, he had received no word as to the condition of his son. The wounded boy left Janesville about a year ago for North Adams, Mass., for the purpose of securing work in one of the large cotton mills in the east.

Prior to his removal from this city he worked at the lower cotton mill at Monterey, where he was regarded as an able man. When the present war broke out Ashley got the war fever, and at once hurried to Springfield, Mass., where he volunteered his services and was accepted. Being a young man of twenty-one years and well proportioned, Ashley had no trouble in physical examination, and but few in the entire company were better built physically than was the Janesville lad. On this special point the examining physicians spoke in particular.

Went to Cuba Early

When the first troops in the regular United States army left for Cuba the Springfield, Mass., company of volunteers was included and were among the first to land under General Shafter. Late dispatches report that the Springfield boys were among the first to fire on the Spaniards after the Rough Riders had made their bold dash and that Ashley was right in these ranks is now officially proved. For some time the wounded lad attended school in this city, where he was a prime favorite among the scholars.

In dispatches received today his name is not mentioned as being among the wounded conveyed to the coast of Florida by the United States hospital ships.

Springfield papers assert that Ashley was wounded, but how seriously they have not as yet learned.

THE RONEY BOYS IN CONCERT

Fine Entertainment Planned for Next Tuesday at Court Street Church.

Prof. Henry R. Roney, for many years the leader of Grace church choir in Chicago, the best church musical organization in the west, is in the city today. He has arranged to give a concert at the Court Street M. E. church on Tuesday evening next under the auspices of the Woman's Relief Corps. The program will be a patriotic one, as befits the times. Prof. Roney's company is composed of five boys who are musical prodigies in their respective lines. Master Reona Band is a soprano of remarkable talent, and has won many encomiums wherever he has been heard. Master Raphael Groff handles the violin with wonderful skill; while Norman Trumpon is an excellent alto, and Jamie Crippen a fine soloist. Mr. Roney presides at the organ. The entertainment promises to be a great attraction.

CREAMERY TEAM RUNS AWAY

Wagon Has On Hand 1500 Pounds of Newly Made Butter.

Charles Fitch, proprietor of the Emerald Grove creamery, drove to town today with 1,500 pounds of butter. When near the corner of Main and South Second streets one of the wheels came off and away went the team. Near the corner of Main and Milwaukee streets they were captured with but little damage to the outfit.

Great Treat for the Children.

Prof. Gentry's school of performing dogs and ponies, who are to exhibit under a tent in this city, Milwaukee avenue and Clarence street, Friday and Saturday, July 8, 9, afternoon and evening, will be a great treat for the little folks. The exhibitor, while it is especially attractive to the children, is equally enjoyed by the older people, the acts being so arranged that while the older ones realize the enormous amount of time, labor and patience that it must have required to educate the animals to that degree of intelligence, the younger ones enjoy the general result. The show is decidedly the best of its kind in the world, and never fails to give the best of satisfaction. The entertainment is strictly moral, and enjoys the distinction of being the only show traveling under canvas that interferes in no way with any belief, creed or religion, and is endorsed by the clergy and school superintendents wherever it exhibits. The prices of admission are, children, 15 cents; adults, 25 cents.

FISHER'S MEN LOOK FOR EASTERN GAMES

ROCK COUNTY BOY PLANS GREAT SCHEDULE

State University Football Eleven Is Liable to Send Wisconsin's Fame Broadcast This Fall—Eastern Teams Are Willing to Play—Final Negotiations Now Pending

John Fisher, a well known Rock county boy, who is now manager of the state university foot ball team, took from the Janesville post office this morning a large bundle of letters, the envelopes of which have the marks of well known eastern universities. Among the letters received were some from managers of the football teams of Harvard, Cornell, Brown, Dartmouth and Princeton universities, each anxious to arrange a game with the Badger State boys this fall.

Negotiations are now pending, and before the end of many days, games that may send the fame of Wisconsin broadcast are liable to be closed.

The Boys Will Go East.

In case arrangements are made the Wisconsin boys will, of course, go east to meet their opponents. Among the letters received by Manager Fisher this morning was one from the pen of Manager D. N. Cook, of the celebrated Princeton eleven. He spoke in the highest praise of the good work by the Wisconsin boys last fall, and thought that such a record merited recognition in the east. The first week in November the Princeton boys can and will give a date to Wisconsin in case the Badgers will make the trip east to play.

Want to Meet The Badgers.

The manager of the world-famed Harvard team was also in line with a courteous letter that was short and to the point. It stated that they were willing to meet the Wisconsin boys if a satisfactory arrangement could be made.

Cornell's manager stated that he had looked up Wisconsin's record, and had found that it was first-class in every respect, and that a game might be arranged.

"It is plain to be seen by these letters that we can get games east this fall," said Manager Fisher this morning, "but the one great trouble is in arranging the dates satisfactory to all. We play Minnesota on October 20, and as this will be a hard fought battle, it only goes to show that we would not want to go east until after the boys pass through this game and take light training for a few days following. At present I am negotiating with eastern managers with nothing definite closed."

PROF. HARVEY WELL KNOWN

Former Rock County Man a Candidate For State Superintendent

Lorenzo Dow Harvey, who will be a candidate before the republican state convention for the office of superintendent of public instruction was born in Rock county and graduated from Milton college in 1882, receiving his second degree from that institution in 1875 and the degree of Ph. D. in 1904. After graduating from the college he engaged in teaching and was superintendent of schools at Mazomanie and the city of Sheboygan. In 1882 he resigned his position at Sheboygan and studied law, being admitted the following year, but did not engage in the practice of his profession but a short time, as he was called to the vice principality and co-superintendency of Teachers' Institutes in the State Normal School at Oshkosh, which position he accepted and held with marked success that he was elected to the presidency of the State Normal School at Milwaukee in 1893, since which time that school has attained a position second to none in the west. President Harvey stands in the front rank among the educators of Wisconsin, and it is safe to say that he has no superior as an educator in the state. He is a public speaker of no mean ability, and as a lecturer is in demand both on educational and political topics. He is a republican of the stalwart type and has done excellent work for the party in every campaign for the past ten years. President Harvey was the republican nominee for state superintendent six years ago, but the well remembered "democratic eye" of that year deprived the state of his services. So popular, indeed, is President Harvey with the people of the state that the press has favorably mentioned his name as a possible candidate for United States senator.

MRS. GLASS WANTS LEGAL SEPARATION

FORMER WELL KNOWN LOCAL RESIDENTS

Plaintiff Charges Her Husband With Failure to Support and Drunkenness—Defendant Conducted Photograph Gallery Here and Was Captain Of the Light Infantry.

Mrs. Nellie Glass, a former well known resident of this city, has brought an action for divorce in the courts at Galesburg, Ill., against her husband, Charles F. Glass. The complaint charges the defendant with failure to support and drunkenness.

The defendant, it is said, will make no fight against the action and the plaintiff will have but little trouble in securing the separation.

Well Known Here

Both the plaintiff and defendant played a prominent part in the society and business circles of the Bower City for many years, and only a few years ago removed from here to Galesburg, Ill. Charles F. Glass spent the greater portion of his life in Janesville, and succeeded his father in the photograph business in the now abandoned gallery in the J. M. Bostwick block on South Main street. Later he moved his gallery over the T. P. Burns dry goods store on West Milwaukee street, and afterwards sold it. For several years he was captain of the local militia company, and only a short time ago was brought back to this city to answer to the charge of taking money from the state which did not belong to him while acting as captain of the Light Infantry. He managed to settle up the matter.

Since moving to Galesburg Mr. Glass has been a heavy drinker, and to withe he may lay his downfall.

The Plaintiff in the Case.

Mrs. Nellie Glass, the plaintiff in the present action, is the daughter of T. J. Sal man, of this city, and is highly respected here, where she has a host of warm friends. Some years ago she took up the work of embroidery and needle work, and made a success in it that won for her fame all over the country. She is a hard working woman, and the sympathy of many will be extended to her in her present trouble. Mr. and Mrs. Glass have been married for a number of years, and while in this city resided on South Main street. They have no children.

600 LIVES LOST.

Large French Steamer Sunk in a Collision.

NO TIME TO GIVE HELP

Atlantic Liner La Bourgogne the Stricken Vessel.

FROM NEW YORK TO HAVRE.

British Ship Cromartyshire and the Big Steamer Come Together on July 4, and the Larger Boat Sinks Almost at Once—No Effort Made to Save the Women and Children—Brutality of the Sailors—Officers Perish.

Halifax, N. S., July 7.—By the sinking of the French line steamship La Bourgogne off Sable Island on the morning of July 4, the result of a collision with the ship Cromartyshire, over 600 persons lost their lives. The horror of the disaster grows as the particulars of the accident become known. Of those who perished it is declared by survivors that some were murdered by the sailors to keep them from jumping into the boats. Patrick McKeown, of Philadelphia, a passenger, says he saw a Philadelphian, whose name he cannot recall, murdered by a sailor who fought to keep the passenger back from a boat.

Many of the unfortunates, it is said, who were struggling in the water attempted to drag themselves in the boats or on rafts. These were pushed back into watery graves. Here, too, knives were used freely. Christopher Brunon says he saw a sailor belonging to the Bourgogne strike a passenger over the head with a bar and kill him. The body dropped into the water. The passenger had grabbed the boat in which the sailor was and attempted to get on board.

The Allan line steamer Gracian, which entered this harbor with the ship Cromartyshire in tow, brought the first news of the accident. On July 4, at 6 a. m., sixty miles south of Sable Island, the Cromartyshire collided with the French liner La Bourgogne. The latter sank in ten minutes, and of the 831 persons on board only 200 were saved.

The total number of persons on board, according to the best information obtainable, is 831, divided as follows: One hundred and ninety-one first cabin, 125 second cabin, 295 third, and 220 crew. Following is the list of first cabin passengers:

They embrace first and second class passengers, many of whom took passage on the dock: H. J. Wind, A. La Coste, Mr. Diaz, Mr. Zaballa, Mr. Carillas, S. Madrid, Mr. Jose Del Campo, Mr. Grouin, F. Capt. Henderson, of the Cromartyshire, as soon as the collision occurred, ordered the boats to be lowered and the damage to be ascertained. As it was found that the Cromartyshire was in no immediate danger, the Britisher put about. The vessel with which they had collided was at that time unknown. A few minutes later her whistle was heard and several rockets were sent up. Capt. Henderson replied in like manner, thinking the steamer was offering assistance, but in a few minutes all was quiet, and those on board began to realize the awful results of the collision.

Later the weather cleared still more, and men were to be seen in every direction clinging to wreckage and floating on life rafts. It was a terrible scene. No pen can picture the appalling sight revealed to the onlookers when the curtain of mist rose. The work of rescue was commenced without a moment's delay. Mrs. Henderson, who had ample opportunity of interviewing those who were rescued, expressed her belief from what she heard that there had been no effort to save the women. There were many foreigners on board, who fought for places in the boats. It was fully ten minutes to a quarter of an hour before the Bourgogne went down, and during that time there was ample opportunity offered to rescue at least some of the women and children. As it was, only one woman, Mrs. La Casse, was saved. She is the wife of A. D. La Casse, a teacher of languages of Plainfield, N. J.

A correspondent interviewed nearly all the passengers who could speak English. One passenger said the officers and crew of La Bourgogne neglected the passengers entirely. The second officer was the only man of the crew who did anything to help the terrified and helpless passengers. He cut loose all the boats he could, and, in fact, all the boats that were launched were launched by the brave second officer. He was last seen standing on the deck with his hand on the rigging, going resolutely to certain death.

Mrs. La Casse, the sole woman survivor, said:

"The catastrophe seems like a horrible nightmare, and one thing that stands out from among all the horrors is the heroism of the captain. I saw him on the forward bridge shouting orders. He refused to leave even when he was sure the ship was doomed, and he went down with her."

"Several little children were seen on deck shortly after the collision. They made no attempt to save themselves, and as the big steamship careened over they went down with her and hundreds of others."

"The priests on board the Bourgogne exhibited sublime courage. When all hope was gone they passed among the stricken passengers on the deck quieting them and warning them to prepare to meet their end."

"The many French and Catholics gathered around the priests, kneeling and praying, and as the ship sagged down deeper and deeper received absolution. In this posture, the priests with hands uplifted, the people kneeling in a swaying circle about them, they sank beneath the water."

American Warships Enzel.

London, July 7.—The Daily Mail is much impressed by a statement made by a distinguished American officer to its Washington correspondent regarding the superiority of the armor and armament of American warships over British vessels. The Mail says: "We have verified the startling facts, and are compelled to acknowledge that the statement is in the main accurate. We happen to know that there is distinct uneasiness in the highest ranks of the British navy over the under armament of the British warships."

A man in Virginia, rode forty miles to Fairfax Station, for the express purpose of getting Chamberlain's Cough Remedy and took home with him a dozen bottles of the medicine. The drugist who relates the incident adds: "Your remedy seems to be a general favorite wherever known." Its effects are indeed wonderful in all lung and throat troubles. Procure a bottle at People's Drug Store, E. Milwaukee St.

Runnells of Jacksonville.

Chicago, July 7.—The new republican state central committee met at the Great Northern Hotel Wednesday and organized. Gov. Tanner met with the committee and delivered a brief address, in which he warned the members against overconfidence, urged eternal vigilance, incidentally talked patriotism, and predicted an overwhelming victory for republicanism in the coming election. Dr. T. N. Jamieson called the meeting of the committee to order. C. S. Runnells of Jacksonville was unanimously elected chairman of committee and Secretary Van Cleave was continued in office.

Wheeler Is Reported Dead.

Tampa, Fla., July 7.—A rumor was current here to the effect that Gen. Joseph Wheeler died at Santiago of yellow fever. Miss Wheeler, a daughter of the general, who is now here, was one of the first to learn of the reported death of her father, and, assisted by the press censor, Capt. Brady, has made every effort to learn the correctness of the report, but has failed to do so.

Spain's Only Hope—Peace.

Paris, July 7.—"Spain hasn't an hour to lose to sue for peace." This is the closing phrase of Le Temps' leader. The article is full of sympathy for a brave people brought low, but it leaves no room for misconception. The destruction of Cervera's squadron and the taking of Santiago, it thinks, are more than appears on the surface. The disasters mean the destruction of Spain's naval power.

AMERICAN LOSS HEAVY.

Seventeen Hundred Killed and Wounded Before Santiago de Cuba.

Before Santiago, Sunday, July 3 (via Kingston, July 4).—The fighting during the last two days has cost the American army 1,700 men. This estimate is made by the surgeons at division headquarters after careful figuring by the surgeons at the hospitals.

The list of wounded, as made up at the division headquarters, is very large in proportion to the list of those killed outright.

Probably less than 100, all told, of the number of wounded, have died, making the total number of deaths from wounds in the neighborhood of 150. The remainder of the wounded will probably recover.

Considering the fact that not over 12,000 men were engaged on our side, and that not all of these were actually under fire, the percentage of loss is very heavy.

The slaughter was brought about mainly by the gallantry with which our troops advanced into the open ground in the face of a heavy fire from the Spanish intrenchments and rifle pits.

Destructive Blast at Racine. Racine, Wis., July 7.—The tannery of the A. Platz & Sons Leather Company was totally destroyed by fire Wednesday evening. Loss, \$115,000; insurance, \$30,000. During the fire Fred Platz, the manager of the plant, was seriously injured by jumping from a third story window.

Grocery Side Talk.

If there is one thing more than another the average woman is particular about it is the groceries she pays for and the treatment she receives from her local purveyor. She has a right to be particular, too, as she usually is held responsible by the rest of the family for the eatables on the table, and their purchase being a daily duty she prefers trading with a store that never disappoints her in any way.

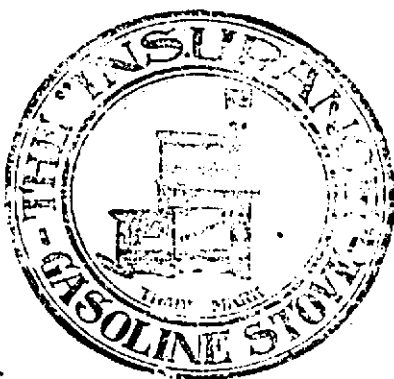

Our high standing among lady traders is through our untiring efforts to do exactly by them as we agree to do—never to disappoint them in quality, price or service. We make it a point to please people no matter if it might be easier for us to do otherwise, and we find it pays. Your money back always if you are not satisfied. Come and find out if we don't do more than you really expected.
